

TRIESTE BUNK BED ASSEMBLY INSTRUCTIONS

IMPORTANT -READ CAREFULLY- RETAIN FOR FUTURE REFERENCE

Always follow the manufacturer's instructions laid out in this Instruction booklet;

- * Two persons are required to assemble
- * All assembly fittings must always be tightened properly -periodically check all fittings and re-tighten as necessary.
- * Routinely check that the upper safety rail and ladder attachment is secure and tighten any fittings using the appropriate tools.
- * Screws must not be loose because a child can squeeze parts of the body, or clothing (e.g. strings, necklaces, ribbons for babies, dummies, etc.) could get caught. There would be danger of strangulation.

WARNING: Children can become trapped between the bed and the wall, a roof pitch, the ceiling, adjoining pieces of furniture (e.g. cupboards) and like.

- * To avoid risk of serious injury the distance between the top safety barrier and the adjoining structure shall not exceed 75mm or shall be more than 230mm.

WARNING: High beds and the upper bed of bunk beds are not suitable for children under six years due to risk of injury from falls.

- * Children are likely to play, bounce, jump and climb on beds, therefore the child's bed should not be placed too close to other furniture or windows, and should be placed either tight to any wall or have a gap of 300mm between the wall and the side of the bed.

WARNING: Do not use this Bunk Bed if any structural part is broken, torn or missing.

WARNING: Bunk beds can present a serious risk of injury from strangulation if not used correctly.

- * Never attach or hang items to any part of the bunk bed that are not designed to be used with the bed, for example, but not limited to ropes, strings, cords, hooks, belts and bags.
- * This bed is designed to be used with a mattress with the following dimensions H17 x W90 x D190cm.
- * Please ensure that the mattress depth does not go past the permanent mark on the post/upper Safety Barrier.
- * Ensure adequate ventilation occurs in the room in order to keep the humidity low and to prevent mould in and around the bed;
- * This product complies to BS EN 747:2012, part 1&2 + A1:2015.
- * Produced in Brazil For Heartlands Furniture B66 2RX
